TERMS OF REFERENCE

Administrative Assistant/ Spotlight Initiative	
Organizational Location:	<p>Under the supervision of the Project Coordinator and in close cooperation with the Project Associate, the Administrative Assistant supports the Spotlight Initiative Operations by performing a variety of standard administrative processes ensuring high quality and accuracy of work. The Administrative Assistant promotes a client, quality and results-oriented approach.</p> <p>The Administrative Assistant will be based in the UNFPA Country Office located in Mexico City and will work in close collaboration with the UNFPA Operations team and administrative staff supporting other programmes and projects to ensure synergies and consistent high-quality service delivery.</p>
Background and Justification:	<p>Violence against women and girls (VAWG) is a pandemic whose most extreme manifestation in Mexico resulted in the murder of 2,746 women in 2016, an estimate of 7.5 women per day. VAWG is one of the most devastating, persistent, embedded, and unfortunately tolerated forms of human rights violation in the world. This violence is both a cause and consequence of gender inequality and discrimination. The different forms of VAWG are part of a continuum exercised against them on a regular and systematic basis at all levels of their lives, which is rooted in the sexist cultural models. It is also exacerbated, as well, by economic inequality, discriminatory regulations, organized crime, enforced disappearance and a deficient access to justice which prevents impunity. The ultimate form of this kind of violence is femicide.</p> <p>According to the National Survey on Dynamics of Household Relationships (ENDIREH, 2016), in Mexico, 66.1% of women, aged 15 or above have suffered from violence at some point in their lives; 60% of adolescents (between 15 and 17) have experienced at least one episode of violence in their life. Additionally, a considerable proportion of the victims of citizen insecurity and violence in the country are women and girls, since disappearances, trafficking in persons for sexual exploitation and sexual violence affect them disproportionately compared to their male counterparts.</p> <p>On September 27, 2018, the UN and the European Union, in a global alliance, launched the Spotlight Initiative to Eliminate Violence against Women and Girls. This alliance promotes the assumption of political commitments at the highest level and contributes to the achievement of the Sustainable Development Goals (SDG) and, in particular, to Objective 5 on gender equality. The Spotlight Initiative will make specific investments on a large scale in Asia, Africa, Latin America, the Pacific and the Caribbean, and focuses on all forms of violence against women and girls that exist and potentiates gender inequality, with a special focus on attention to domestic violence; sexual and gender-based violence; harmful traditional practices; trafficking in persons and sexual</p>

and economic (labor) exploitation.

In Mexico, the Spotlight Initiative seeks to address the problem of femicide in a holistic way. For this, the Country Programme (CP) has six pillars and places special emphasis on strengthening prevention strategies that reduce risk margins, modify patriarchal social structures, strengthen equality between men and women, and reduce impunity.

To achieve an adequate and sustainable transformation in the reduction of femicidal violence, the Spotlight Initiative seeks: (a) the existence and application of non-discriminatory laws and appropriate sanctions, which are monitored and evaluated by (b) institutions with trained personnel and mechanisms for functional coordination with other institutions, together with (c) other decision makers who change stereotypes and gender roles, and who effectively prevent violence, through (d) quality services and (e) quality public information, together with (f) an autonomous and professional civil society.

The CP will be implemented according to six results areas:

- Outcome 1: Legislative and policy frameworks, based on evidence and in accordance with international human rights standards on all forms of VAWG, are in force and are implemented in plans.
- Outcome 2: National and subnational systems and institutions plan, fund and offer evidence-based programs that prevent and respond to VAWG, and include other sectors.
- Outcome 3: Social standards, mindsets, and behaviors on gender equality change at a community and individual level to prevent VAWG.
